VERSE 1
Em*                            D*                            G*
- Never saw it as the start - - it's more a change of heart
F///                                                                                  E///
Rapping on the windows - whistling down the chimney pot
G/// D// C// B///
Blowing up the dust in the room where I forgot - I laid my plans in solid rock
Em///                                                                                   A///
Stepping through the door - like a troubadour whiling just an hour away
Em///                                                                     A///
Looking at the trees on the roadside feeling it's a holiday
Bbdim7 Bm Em7

BRIDGE
D// Bbdim7// Bm// A// Em///
You and I should ride the coast - and wind up in our favourite coats just miles away
G/// G/// A/// A///
- Roll a number - write another song - like Jimmy heard the day he caught the train

CHORUS
D// A// G// Em7/
- Woah woah la la la - woah woah la la la
D// A// G// Em7/*/ NC/
- Woah woah la la la - woah woah la

VERSE 2
NC///                            D///                            G///
He sips another rum and coke - and told a dirty joke
F///                                                                                  E///
Walking like Groucho sucking on a number ten
G/// D// C// B///
Rolling on the floor with the cigarette burns walked in - I'll miss the crush - I'm home again
Em///                                                                                   A///
Stepping through the door - with the night in store - whiling just an hour away
Em///                                                                     A///
Step into the sky - in the star bright - feeling it's a brighter day
